

STANDARD PROFIL

QUALITY POLICY

THE OBJECTIVE OF OUR QUALITY POLICY IS TO PROVIDE OUR CUSTOMERS WITH DEFECT-FREE AND RELIABLE PRODUCTS.

MISSION

To bring Standard Profil as the leading supplier of automotive sealing systems and the business partner of choice in terms of quality, technology, and price.

VISION

To generate 0-defect products in excellent quality by preventive and predictive quality methods to increase profitability and sustainable business growth, with qualified ambitious employees from all divisions.

To achieve satisfied customer / business shareholders through regular communication via project / customer specific quality organization.

To respect the physical and social environment and pioneer environmental improvement in the industry and society.

PRINCIPLES

MANUFACTURING EXCELLENCE IS DETERMINED BY THE QUALITY OF DESIGN, PRODUCTION, AND THE SERVICE TO CUSTOMERS.

Fulfillment of customers' requirements through the quality of our products and services is our main objective.

Quality is assured by using lessons learnt along with standardized and innovative methodologies.

Quality is the responsibility of every employee from the board of management to operators.

Customer-oriented intercompany deliveries and our qualified suppliers contribute to the sustainability of the perfection of our products.

Our guidelines, processes, and targets are based on international standards, the requirements of customers and shareholders, and our knowledge and experience.

We comply with corporate social responsibility and sustainability standards and take responsibility for the needs of our employees and stakeholders.

Maintaining a continuous improvement mindset with predictive and preventive risk elimination methodologies is our priority.
